

BOARD & INVESTOR RELATIONS

Help us build the **white-glove standard** for creative and consulting work.

A consulting firm that works like a platform and feels like a partner. Built for the enterprise, run like a studio.

THE PROBLEM

Great work still forces a bad trade-off.

BIG CONSULTANCIES

Strategy and process, but no craft and no culture. Polished decks, work that never ships.

AGENCIES & FREELANCERS

Craft, but no strategy, no accountability, and a different vendor for every need.

THE GAP

Nobody owns the whole relationship at a white-glove standard. That is the space we take.

Enterprise clients end up managing vendors instead of getting outcomes. The experience is fractured, and the best creative talent is treated as interchangeable labor.

WHY NOW

AI made output cheap. It made judgment priceless.

When anyone can generate a logo, a landing page, or a strategy memo, raw production stops being the moat. The market fills with slop.

What becomes scarce and valuable is taste, strategy, accountability, and trust. A curated network of the best, delivered white-glove, is the answer to that shift.

THE NICHE WE OWN

White glove, at the enterprise altitude.

We concentrate on high-trust, high-budget relationships where quality and experience are non-negotiable, and where a single accountable partner is worth a premium.

WHAT WE BUILT

One partner, **five connected studios.**

treytech.biz/studios

01

Brand

Identity, positioning,
strategic narrative.

02

Content

Media, storytelling,
audience ecosystems.

03

AI Transformation

AI workflows, systems,
automation.

04

Digital

Infrastructure,
performance, growth.

05

Experience

Physical, digital,
immersive engagement.

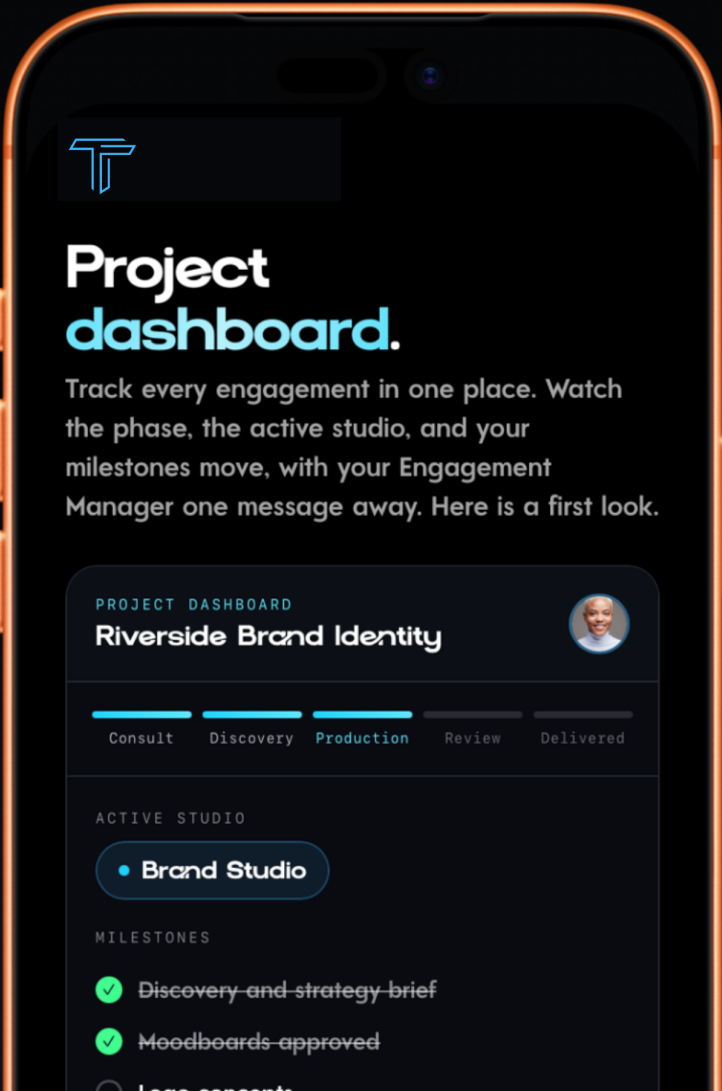

One Engagement Manager routes work across all five. The client gets a single accountable relationship. Strategy leads, craft follows, and nothing is built before it is approved.

THE APP EXPERIENCE

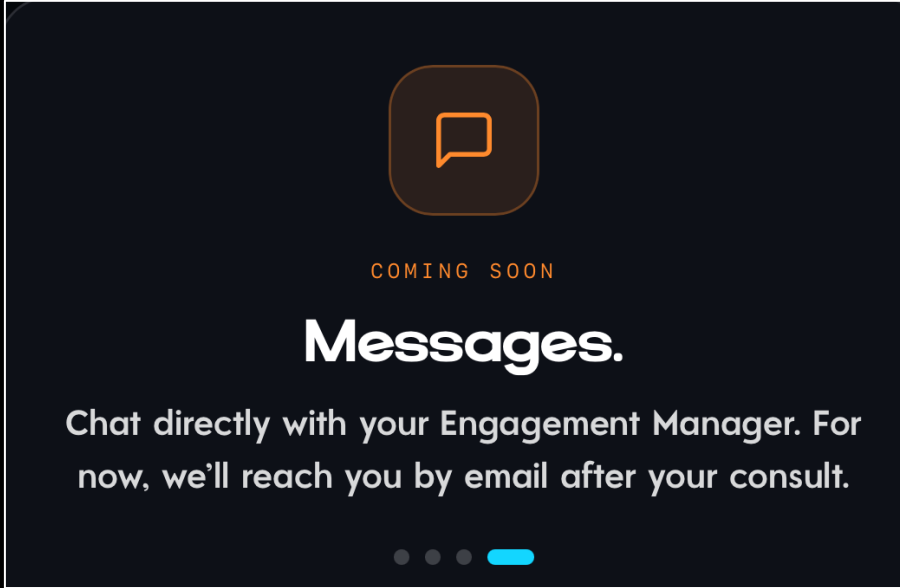

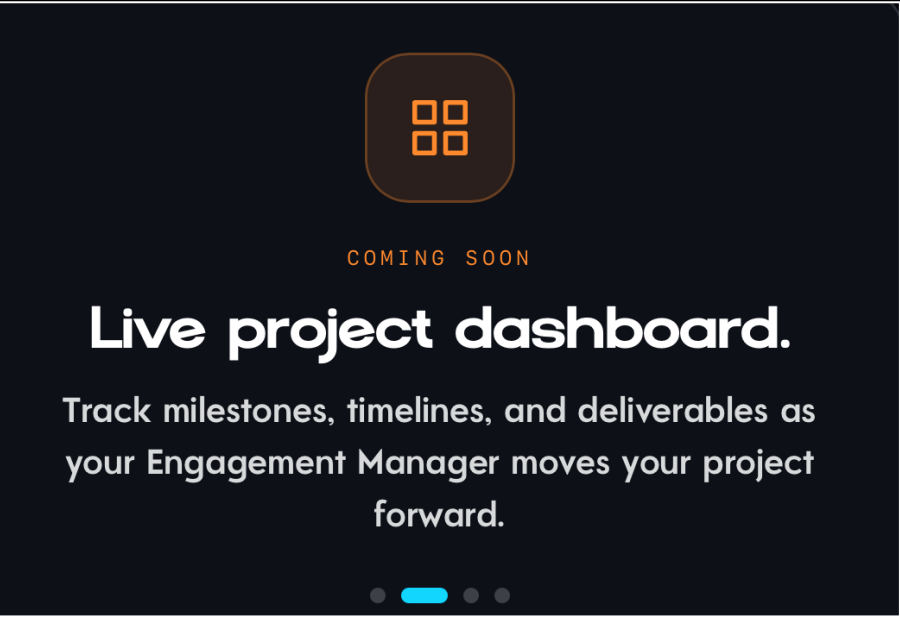

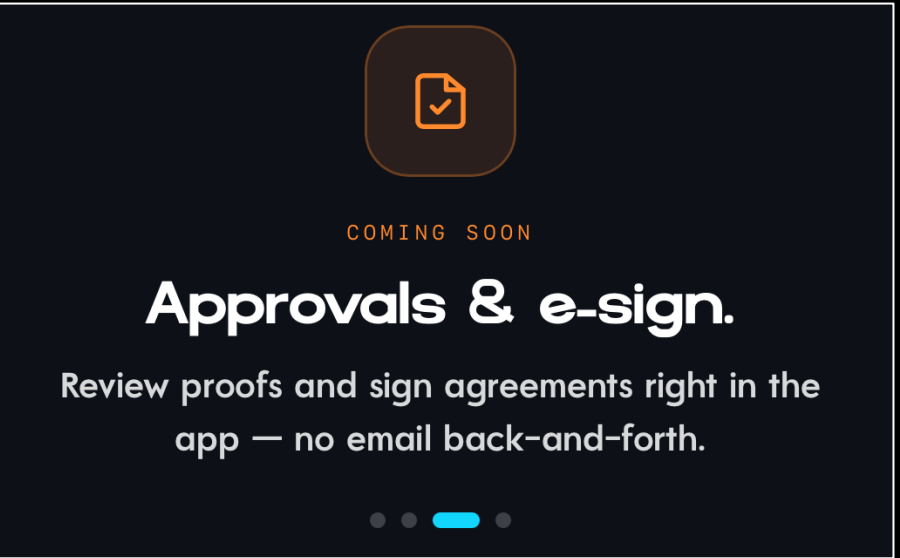

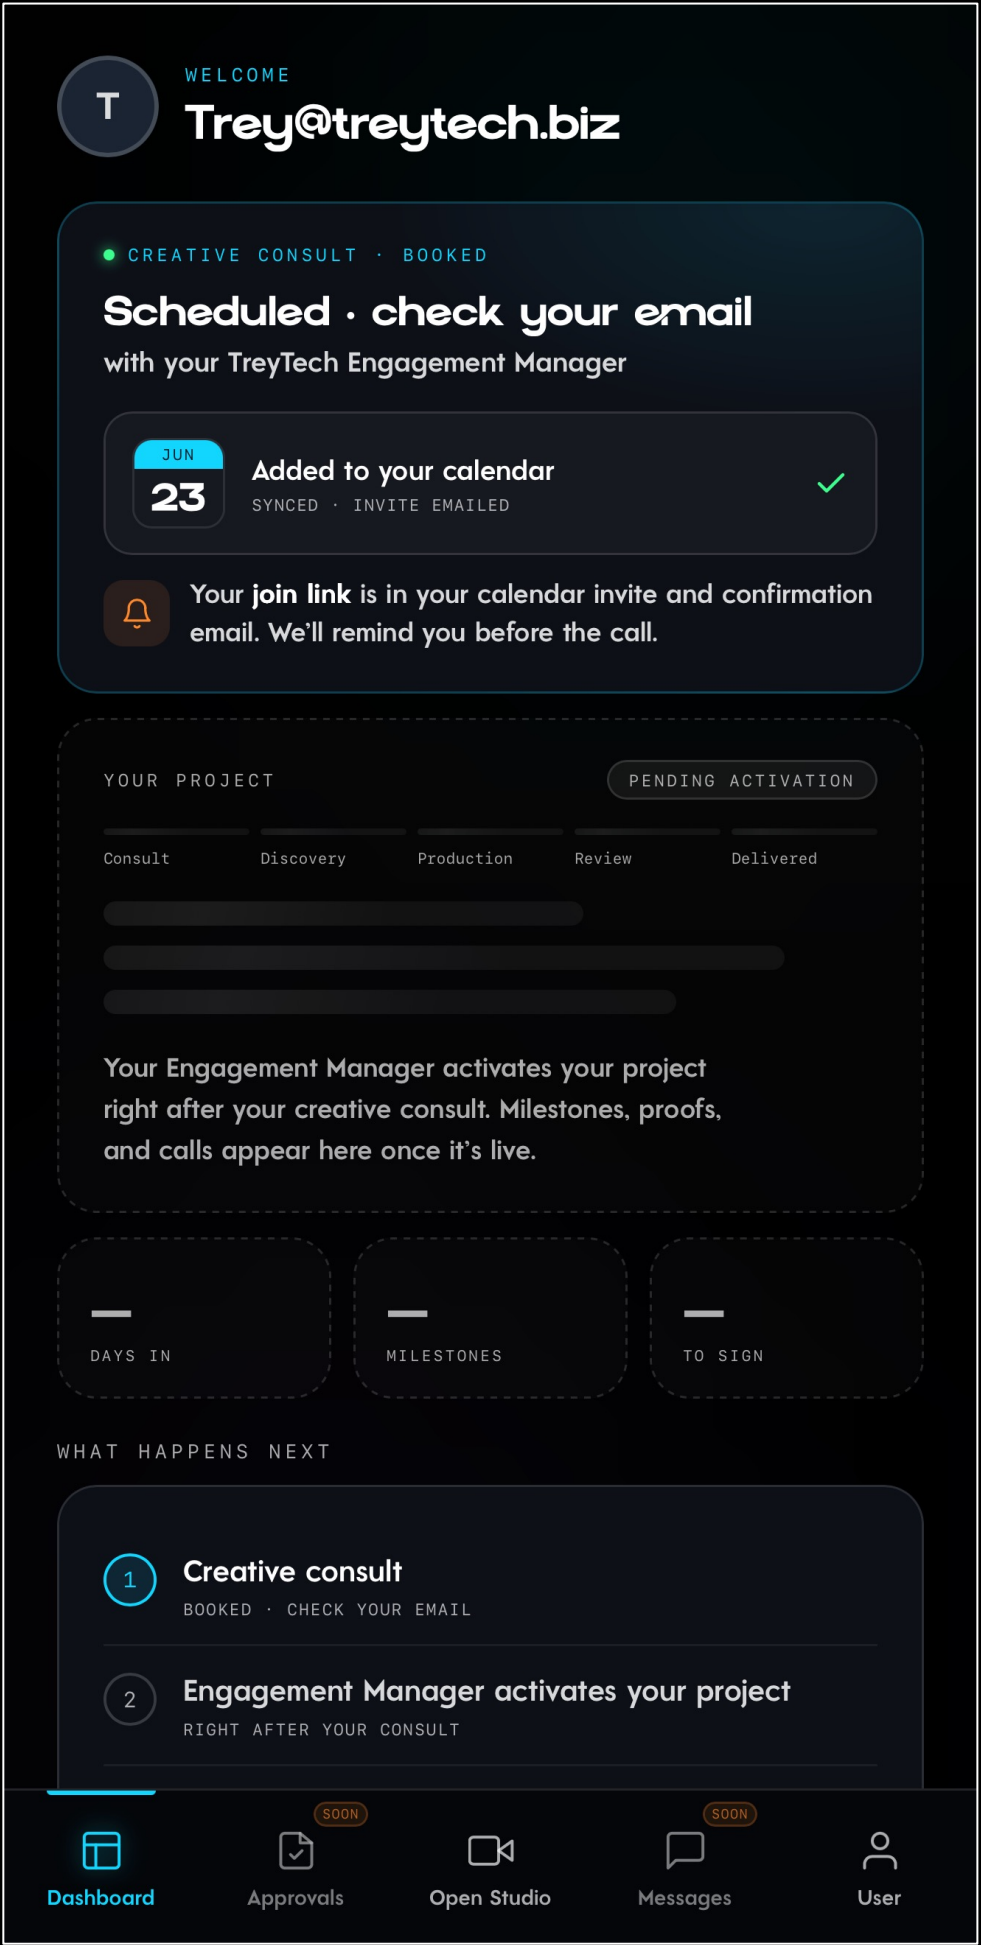

Patent Pending

One partner, from
hello to delivered.

A platform that
works like a partner.

TreyTech app
is coming soon.

WHY IT IS DEFENSIBLE

The best in their craft, **under one standard.**

CURATED, NOT CROWDSOURCED

A vetted network of Studio Pros, by application only. We select for craft, judgment, and reliability.

CREATOR-FIRST TERMS

Pros keep the rights to what they make and are paid fairly per project. The best talent chooses us.

A COMPOUNDING FLYWHEEL

Better talent wins better clients, better clients attract better talent. Curation is hard to copy.

THE APP EXPERIENCE

One app. The whole relationship.

An all-in-one CRM and client platform. The consult, the scope, the work, and the billing live in one place, for the client and for us.

CONSULT

Book the creative consult and start every engagement in one tap.

SCOPE & APPROVE

Proposals, approvals, and milestones. Nothing is built before you approve it.

TRACK & DELIVER

Live project status, files, and deliverables across all five studios.

BILLING & CONCIERGE

Invoices, history, and your Engagement Manager, always one message away.

The app is our operating system. It makes white-glove service scale and gives us proprietary data on how the best work actually gets done.

THE EXPERIENCE IS THE PRODUCT

Service so good it **feels like a partner.**

One point of contact

A single Engagement Manager owns the relationship end to end. No vendor juggling.

Luxury-grade finish

Every deliverable is directed and finished by people. We do not ship slop.

Full visibility

Clear scope, clear status, no surprises. Nothing is built before you approve it.

Built to retain

A relationship worth keeping. Retention and referral are the growth engine.

THE OPPORTUNITY

Three large markets are converging into one.

CONSULTING

A global, high-margin market for strategy and transformation advice.

CREATIVE & MEDIA

Brand, content, and experience spend that keeps moving upmarket.

AI TRANSFORMATION

The fastest-growing enterprise line item, and the reason craft now matters more.

We are not chasing the whole market. We are claiming the premium, integrated slice where quality, trust, and experience win, and where margins are highest.

WHERE WE ARE

Early, on purpose. Built to scale.

THE COMMUNITY

Built on principles the **best talent trusts.**

OUR PRINCIPLES

Strategy leads, people finish the work, and we do not ship slop. The standard is the same at every altitude.

NO IP STEALING

Creators keep the rights to what they make. We never take or resell their work. It is a value, not a footnote.

GETTING INVOLVED

Studio Pros by application, and **Open Studio**, a free public community, so the best people can join and grow with us.

THE INVITATION
